Marking Criteria for CSC1108 Group Project

Criteria / Grade	A+ / A / A-	B+ / B / B-	C+ / C	D / E /F
Algorithms (30%)	Clear demonstration of how different data structures and algorithms (learned and new) were applied and implemented in the application. Able to apply and/or implement algorithms that were not taught in the module.	Clear demonstration of how different data structures and algorithms learned were applied and implemented in the application.	Clear demonstration of how different data structures and algorithms learned were applied in the application.	Did not demonstrate any data structures and algorithms learned in the application.
Features (20%)	Excellent implementation of the essential features of the applications. No errors encountered during demo.	Good implementation with most of the essential features implemented. Some errors encountered during demo, e.g., 1 essential feature did not work.	Poor implementation of the application, with 2 or more features not working correctly. Many errors encountered during demo.	Unusable application with most essential features not working correctly. The application did not run correctly during demo.
Creativity (15%)	Additional features (4 or more) implemented to make the application complete and more interesting.	Additional features (2-3) implemented to make the application more interesting.	1 additional feature implemented to make the application more interesting.	No additional feature implemented.
UI / Visualisation (10%)	Excellent UI / Visualisation. Looks professional and no glitches during demo.	Good UI / Visualisation. Functional but have some UI glitches during demo.	Poor UI. Lacks some UI / Visualisation features. Many glitches during demo.	Did not provide a UI / Visualisation for the demo.
Presentation (25%)	Excellent presentation. All presenters spoke clearly. Presentation is clear, organised and easy to follow. All team	Good presentation. Most presenters spoke clearly. Presentation is organised but difficult to follow sometimes.	Poor presentation. Most presenters did not speak clearly. Presentation is not organised and very difficult to	Project team did not prepare a presentation for the demo.

	members presented a part of the demo.	Some team members did not present for the demo.	follow. Only 1-2 team members presented for the demo.
